- Composition: 100% PES (Polyester)
- Martindale Test: 100.000 Cycles
- Fire retardant: EN 1021-1
- Water repellent

## Coating

We use base and top coatings with a wide range of possible applications: on open or closed pore wood, as glossy and matt topcoats, pigmented or clear. Our coatings transfer the benefits of the most modern coating technologies into the most traditional wood coating products. Because we try to minimize our negative influence to the environment we use only water based products certified with EN 71-3.
